**Subject:** Project Minerva: UIC-60 Forms uploaded to OneDrive

All,

GCS has completed UIC-60 Forms for the 4 injection wells in Project Minerva. The following files have been uploaded to the EPA OneDrive under "11. Additional Info > UIC-60":

1. UIC-60 Form pdf (4)
2. Directional survey excel spreadsheet (4)

Please note that GCS is in the process of generating well plats and will provide as soon as they are finalized.

I hope everyone has a great Labor Day weekend.

Thanks,  
Jon
